

AIC will supply new motors and automation system for the Kocks RSB of Indian Steel & Wire Products Ltd.

The client *Indian Steel and Wire Products Ltd*, (former Tata Steel Long Products) awarded AIC group the supply contract for the E&A package including motors for the new Kocks RSB370⁺⁺/4 in the plant of Jamshedpur.

AIC will supply the E&A portion, motors, the power control cabinets including the AC drives as well as PLC and HMI system.

This new contract follows the previous one recently concluded with Arjas Steel, confirming the excellent, friendly and cooperative relationship with FRIEDRICH KOCKS GmbH Germany.

During the recent Christmas period a complete test of the motors has been successfully accomplished with the presence of the Customer.

The final commissioning of the equipment in India is scheduled in the second half of 2024.

About Companies:

AIC Group is a technological partner with extensive experience and deep know-how and stands itself as a global power control supplier and system integrator designing, manufacturing, and implementing automation systems, process control, and mechatronic solutions for both greenfield and revamping projects. Focusing on the steel and metals industries for long and flat products, the Group provides cutting-edge technical solutions by handling complex project schedules and thus establishing satisfactory and remarkable partnerships through its 6 international offices.

More than 45 years of modernization for endless reliability processes.

Indian Steel and Wire Products Ltd. Established in 1920, the Indian Steel and Wire Products Limited became the first wire drawing company of India, in 2003 became a subsidiary of Tata Steel and it is now a primary manufacturer of wire rods, TMT rebars, wires, welding products, nails, rolls and castings.
