

POMINI Long Rolling Mills has chosen AIC for the supply of a new Shear to GERDAU Monroe, MI plant

The project foresees the supply of all electrical and automation cabinets for a new Start Stop shear to be supplied to GERDAU Monroe rolling mill. Our installation will be integrated in the mechanical part supplied by our partner Pomini Long Rolling Mills. Safety accesses to the new machine is also an important aspect of the project.

The goal is to optimize and expand the client's production flexibility, enabling a more linear production process with fewer interruptions throughout time as well as optimal management of all production phases.

About Companies:

AIC Group is a technological partner with extensive experience and deep know-how and stands itself as a global power control supplier and system integrator designing, manufacturing, and implementing automation systems, process control, and mechatronic solutions for both greenfield and revamping projects. Focusing on the steel and metals industries for long and flat products, the Group provides cutting-edge technical solutions by handling complex project schedules and thus establishing satisfactory and remarkable partnerships through its 6 international offices.

More than 45 years of modernization for endless reliability processes.

POMINI LONG ROLLING MILLS since 1886 offers complete solutions for hot rolling of bars, coils, sections and rails, from complete lines to services for the entire investment life cycle.
